16 March 1957

RECOMMENDED FOR: Director of Security

25X1A9a

SUBJECT:

[REDACTED]
(Request for Credential)

25X1A9a

1. [REDACTED] is presently assigned as the transportation officer, Project AGRICULTURE, and as such is charged with making all travel arrangements for this Project. In addition to the above duties he is also the personal transportation officer for the Director and his immediate staff. This latter responsibility, by necessity, requires his personal attention to planning details, last minute reservations and special courtesy arrangements with officials of airlines and railroads. On many occasions these matters are intended to be odd hours and generally necessitate considerable quick action.

25X1A9a

2. In the past [REDACTED] has been handling these matters on a personal basis and his ability to meet requirements have been commendable. The need for this type of credential has often arisen and issuance of same would most greatly facilitate his work.

25X1A9a

3. It is recognized that a request of this type is somewhat out of the ordinary, however, I have discussed the situation with members of our Security Staff and we mutually agree that [REDACTED] is a person of pains, tact, discretion and good judgement and would not abuse the privilege of having such identification.

25X1A9a

4. I would most certainly appreciate your comments and/or concurrence in the issuance of an open non-investigative credential to [REDACTED]

25X1A9a

[REDACTED]
Project Director of Administration
